[Machine Manual Vmc Hartford](#)

High efficiency •The rapid feed rate is 40/40/32 m/min for X,Y,Z axes (opt.) . •Such high speeds reduce non-cutting time and directly increase productivity. Better stability, high accuracy •The rigid one-piece bed and wide column base are heavily ribbed to prevent twisting and distortion under even the most severe cutting forces.

[ck2.paradisewikis.com](#)

Maximum support •Zero overhang design for optimum stability. Axis overhang •The base has been redesigned to widen the support points on the base and guarantee full support throughout the X axis traverses. Column extension delivers higher stability •The base of the machine has also been redesigned to deliver exceptional stability under heavier cutting loads.
