When an item is new, this value is zero. Each time an item is worked on an anvil (except when renaming only), the number of times the item has been worked previously is taken as n, the

number 2 is raised to the power of n, and then 1 is subtracted. Thus if an item has been worked n times, the penalty is 2^{n-1} .

The Night's Edge is the second most powerful pre-Hardmode weapon in the game, following the Star Cannon. It deals 42 base damage at Average speed. This weapon emits a large amount of purple light when swung - an amount similar to that of the Fiery Greatsword, so it is useful in caves. The Night's Edge gives off the light of the Fiery Greatsword, the design of the Muramasa, the length of the ...
